

I see no difference between this and the Satellite companies broadcasting the local stations. I pay for XM radio because I'm sick of being bombarded with horseshit commercials 45 minutes out of every hour. And I'm sick of these local radio station whiners talking about how XM is such a bad service.....If it is so bad why are they wasting the time to tell their listeners.....won't they find out by themselves ? The reason they are bad mouthing XM & S is because they are scared !.....very scared that they will lose listeners to a great premium subscription service.

TV, radio & the internet have become a place where advertising takes priority over everything and therefore commands the bulk of the time per hour. I cannot even sit through a football game anymore because of the commercial horse shit that is force fed to the American public.

One last thought, If the NAB & the FCC screw with my XM I will sick Howard Stern on your asses !!
